Covid-19 – Information for 360 CHICAGO Guests:

Like all businesses in our industry, we are actively monitoring the situation regarding the spread of Covid-19 coronavirus and are in regular contact with the CDC and local health authorities. According to local health authorities, the risk of infection in Illinois remains low and 360 CHICAGO continues to welcome guests.

The safety and wellbeing of our guests and our team is our priority and we will take all necessary precautions to ensure the continued good health of all. As such, and in line with general public health guidance, we have implemented enhanced cleaning and sanitization practices throughout 360 CHICAGO and increased the availability of hand sanitizer and ask that all guests and team members observe good hygiene practices during their time with us.

There are simple things you can do to help prevent the spread of the virus, including:

- Covering your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze.
- Putting used tissues in the garbage immediately.
- Regularly washing your hands with soap and hot water for at least 30 seconds and using hand sanitizer when soap and water are not available.
- Trying to avoid close contact with people who are unwell.
- Avoiding touching your eyes, nose, or mouth if your hands are not clean.

Throughout our space we have placed hand sanitizer in convenient locations for our guests and we encourage you to use them regularly. If you cannot find sanitizer, a 360 CHICAGO team member will be happy to assist you.

If you do feel unwell during your visit, please contact a 360 CHICAGO team member immediately – maintaining a safe distance of at least 6 feet where possible.

Thank you for your cooperation and understanding.
